

## HOSE NOZZLES

AHNT20 Trigger 20mm

AHN40 Large 40mm

AHN32 Large 32mm

AHNS32 Small 32mm

AHNS25 Small 25mm

AHNS20 Small 20mm

**ANKA** hose nozzles have been designed for a wide range of uses. Incorporating a uniquely designed protective outer rubber ring, and by using high quality industrial plastics, these nozzles are given greater impact resistance, for a longer working life.

The large bore 40mm & 32mm have been widely accepted in the farm and dairying industries. The extra water volume moves solids quickly and efficiently.

For smaller volume washdown, the small bore 32mm & 25mm are ideal. Proven to be the best in their class, these compact and reliable nozzles can provide the performance that is required for a quick clean up, in any situation.

The Hose Reel Nozzle & Trigger Spray Guns, have also been designed with features that the larger range gives. Agriculture, horticulture, industry, marine and domestic users can all benefit from this quality range.

### Features

- Protective Outer Rubber Ring
- High Flow Rates
- Quick Action ON/OFF
- Non Corrosive Parts
- Quality Materials
- Serviceable

## HOSE TAILS

**ANKA** Hose Tails are designed with a unique barb system. This system has no sharp edges which may cause damage to hoses when clamps are used.

### Hose Tail Sizes Available

Code	Size
AHT	15mm (1/2 inch)
ADHT	20mm x 20/15mm
AHT	20mm (3/4 inch)
AHT	25mm x 20mm
AHT	25mm (1 inch)
AHT	32mm (1 1/4 inch)
AHT	32mm x 25mm
AHT	40mm (1 1/2 inch)
AHT	40mm x 32mm
AHT	50mm (2 inch)

## Hose Nozzle Service Kits

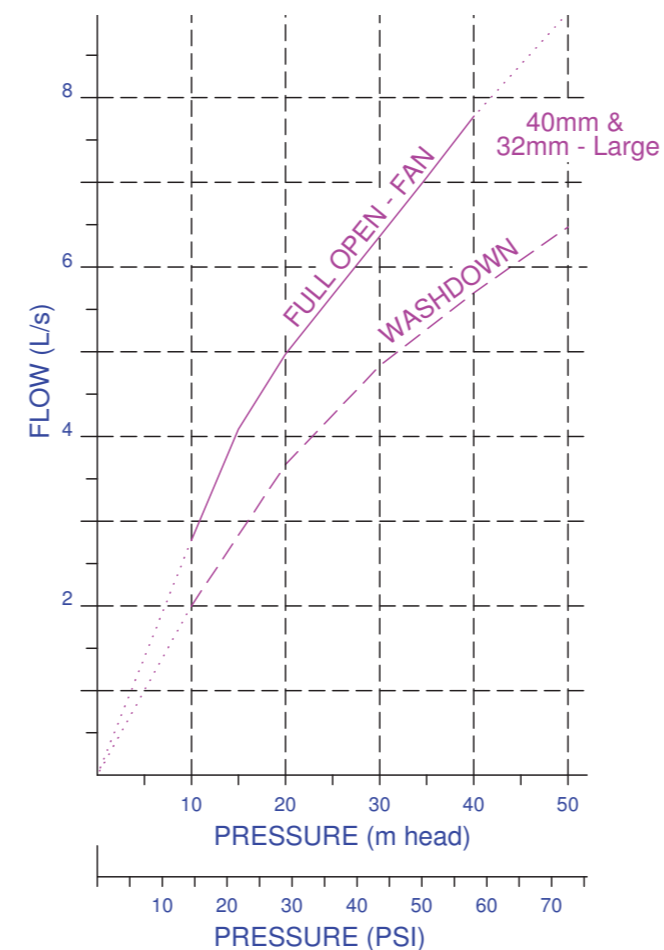

Being a mechanical device, the **ANKA** hose nozzle may need to be serviced over a period of time. The O-rings may wear and silicone grease may need to be reapplied.

By simply removing the top cap and unscrewing the stainless steel bolt, the **ANKA** hose nozzle comes apart for servicing quickly and easily.
