

# PIPE UNIONS

**ANKA** pipe unions are designed for a number of pipe work installations around pumps, tanks, dairies, industry and irrigation. With its unique design and by using a

high quality industrial plastic/glass-fibre reinforced nylon, means that they can be used in place of traditional metal fittings, with the advantage of being non-corrosive.

## Features

- Strong Design
- Quality Materials
- Non-Corrosive
- High Pressure
- Full Flow

## Materials

Body: Glass Fibre  
Reinforced Nylon

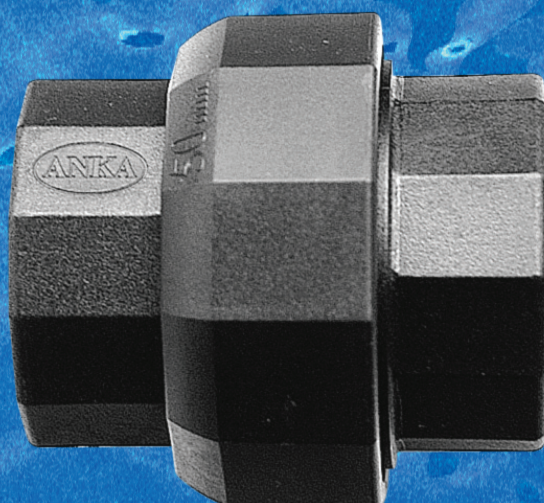

O Ring: Nitrile Rubber

Maximum Working Pressure:  
16 bar (1600 kpa - 230psi) @20°C

BSPT Threads

## Available Sizes

Code	Size	BSPT Thread
APU 20mm	(3/4 inch)	
APU 25mm	(1 inch)	
APU 32mm	(1 1/4 inch)	
APU 40mm	(1 1/2 inch)	
APU 50mm	(2 inch)	

Supplied by

ANKA Products guarantee to replace any fitting, which fails due to manufacturing defect. ANKA Products do not accept any liability, due to consequential damage, or any associated cost involved in replacing ANKA Products.
